Zakarya Aanni Fullstack Developer

 GitHub | 📞 0662271630 | 🌐zakaryaaanni.netlify.app | ✉zakaria.aanni@gmail.com | 📍 Rabat, Morocco

Skills

Programming Languages: Node.js, PHP, Java, JEE, JavaScript, TypeScript, PYTHON
Frameworks: Nest.js, Express.js, SpringBoot, Laravel, Vue.js, Nuxt.js, Angular.js, React.js, Next.js, Django.
**Database Management:** MySQL, PostgreSQL, MongoDB, NoSQL
Tools: GitHub, GitLab, Docker, RESTApi, WebSocket, OAuth, Amazon (AWS), OOP, OpenAI, Redis, Microservices, Kafka
DevOps & Testing: CI/CD, Nginx, Pm2, Git, Jest

Professional Experience

Backend Node.js - Nestjs | Opineo.io   Feb2024 – Present
- **Cozytrip** ⧉ : Developed the backend for an online accommodation booking platform (Fiamane project) using Nest.js, WebSocket, Docker, PostgreSQL, and Stripe API.
- **LegalAi**⧉ : Developed the API for LegalAi, a platform that generates custom General Terms and Conditions by analyzing websites. Built with Nest.js, Puppeteer, and OpenAI, the project automates the creation of compliant documents tailored to business needs.
- Agile Teamwork: Collaborate effectively with teams in Agile mode (Scrum), communication and sharing information and contributing to collective success.

Full Stack Vue.js – Node.js/Java Developer | **AjiCréative - Web Agency - Remote**   Mar 2023 – Feb 2024
- **Sheedn**: Contributed to the development of a social media mobile app for relationship matching (similar to Tinder). Utilized NestJS, REST APIs, TypeScript, TypeORM, AWS (S3), and socket.io.
- **Quiews** ⧉: Led backend API development for a platform enabling user connectivity with multiple social media accounts (Facebook, Instagram, Twitch, Snapchat, etc.). Employed NestJS, REST APIs, TypeScript, TypeORM, socket.io, WebSocket, Social network APIs, OAuth, and AWS (S3).
- **Flegissime** (PDF): Developed a procurement application connecting customers to wholesalers, focusing on simplifying the purchasing process. Technologies used: SpringBoot, TypeORM, Angular.js.

Backend PHP – Laravel Developer | Freelance   Jun 2022 – Mar 2023
- Developed websites for FlasterGroup, SB-tech, Vidka, and Swissytem using HTML, CSS, JS, Laravel/Node.js/Java, and Bootstrap.

Projects

FlasterGroup ⧉ | Node.js - Nest.js*, MySQL*   May 2021
- FlasterGroup's website developed with Nest.js, reflects manufacturing expertise and has been distributing industrial equipment since 2014, with a design office and an experienced team.

Swissystem   ⧉ | PHP - Laravel, MySQL   Sep 2021
- Swissystem's website was developed with Laravel, this company was born from a desire to meet the best expectations of individuals and industrialists in the electricity, renewable energy, air conditioning, and plumbing sectors.

SbTech   ⧉ | Java - Spring*, MySQL*   Mar 2022
- Website created in Spring, SB-TECH offers reliable tools to optimize services and meet each client's specific needs, regardless of their sector of activity.

Education

Engineering degree | Software engineer | 2024-2026
Moroccan school of engineering | Rabat, Morocco
Bachelor's degree | Mathematical and Computer Sciences | 2020-2022
Ibn Zohr University | Agadir, Morocco
University Technology Diploma (DUT) | Computer Engineering | 2018-2020
Higher School of Technology | Safi, Morocco
